AMENDMENT

Dear Sir:

This is in reply to a Notification to Comply with Requirements for Patent Applications Containing Nucleotide and/or Amino Acid Sequence Disclosures mailed 05 March 2007. The Office noted that Applicants needed to provide a computer readable form copy of the "Sequence Listing" as well as an amendment specifically directing the sequence listing's entry into the application.

In response, submitted herewith is a copy of the sequence listing in computer readable form, 3.5" diskette. The sequence listing information recorded in computer readable form is identical to the paper copy of the sequence listing, also submitted. No new matter is involved. Applicants respectfully request entry of the Sequence listing into the present application.

Although no fee is believed necessary for entry of this Amendment, the PTO is authorized to charge any necessary and additional fees that may be due to Deposit Account No. 12-0690. In furtherance of prosecution, the Examiner is invited to call the undersigned to discuss the application and its claims.

Respectfully submitted,

Dated 07 May 2007
